

NAVENTIK

POSITIONING SOLUTIONS FOR
VEHICLE AUTONOMY

Autonomous Driving, ADAS, Connected Cars, Car2X, Mobility as a Service ...
... the automotive industry is currently rapidly changing!

We drive this change as one of the most innovative Tech Startups in Germany.

Our mission is to provide: POSITIONING SOLUTIONS FOR VEHICLE AUTONOMY!

You want to be part of our mission and work with us in the most beautiful office in Chemnitz,
without kicker tables, but with unique engineering spirit?

Then join us as

GNSS Team Lead - Senior C++ Developer

Full-time, Open-ended, Location Chemnitz

NAVENTIK's OFFER

- ✔ Pursue your career in a solidly financed startup
- ✔ The opportunity to take responsibility for projects and support of self-organizing teams
- ✔ Flexible working hours that support a good work-life-balance
- ✔ An attractive salary (& a modern working environment)

WHAT YOU BRING

- ✔ After a master degree in MINT (Mathematics, Computer Sciences, Natural and Engineering Sciences and Technology) you have at least 3 years of professional experience in automotive or industrial software development or as a research assistant with first leadership experience
- ✔ You have 2+ years experience in programming C++ or you are able to learn it as a passionate programmer
- ✔ You have good German or English language skills or you are willing to learn German
- ✔ You are "hands on" and like to take responsibility to inspire your team members

WHAT YOU DO

- ✔ You lead the implementation of signal processing and sensor fusion algorithms of your scrum team in our in house development projects
- ✔ You pursue active and result-oriented project management
- ✔ You support our technical management in the fields of requirements specification, software architecture, feature development and quality management activities
- ✔ You actively gather knowledge in the field of GNSS satellite navigation to further improve our software solutions
