

# NAVENTIK

POSITIONING SOLUTIONS FOR  
VEHICLE AUTONOMY

Autonomous Driving, ADAS, Connected Cars, Car2X, Mobility as a Service ...  
... the automotive industry is currently rapidly changing!

We drive this change as one of the most innovative Tech Startups in Germany.  
Our mission is to provide: POSITIONING SOLUTIONS FOR VEHICLE AUTONOMY!

You want to be part of our mission and work with us in the most beautiful office in Chemnitz,  
without kicker tables, but with unique engineering spirit?  
Then join us as

## C++ Developer Core Development

Full-time, Open-ended, Location Chemnitz

### NAVENTIK'S OFFER

- ✔ The big chance to start your career in a solidly financed startup
- ✔ The opportunity to develop yourself towards being an automotive software and vehicle localization expert
- ✔ Flexible working hours that support a good work-life-balance
- ✔ An attractive salary & a modern working environment

### WHAT YOU BRING

- ✔ You have a bachelor or master degree in MINT (Mathematics, Computer Sciences, Natural and Engineering Sciences and Technology) or you convince us with your programming skills even if you do not have a degree
- ✔ You love to program C++; alternative programming skills as C, C# are desired
- ✔ You have good German and English language skills, further languages are a plus
- ✔ You are "hands on" and like to take responsibility to be a part of NAVENTIK

### WHAT YOU DO

- ✔ You contribute to the implementation of signal processing and sensor fusion algorithms in our in house development projects
- ✔ You support your team lead in the fields of requirements specification, software architecture, feature development and quality management activities
- ✔ You actively gather knowledge in the field of satellite navigation to further improve our software solutions
